objective

Recent university graduate with a computer science degree , As an aspiring junior front-end developer, I am passionate about learning and growing my skills in web development, I am constantly seeking new challenges and opportunities to learn and improve, whether through personal projects or online courses. My goal is to become a valuable member of a web development team, where I can contribute my skills and continue to grow as a developer. I am excited to embark on this journey and make my mark in the world of web development."

Skills

HTML CSS Bootstrap javaScript ECMAScript 6+ OOP JSON jQuery React-js SASS responsive-web-design GitHub NPM Git problem-solving regular-expression APIs
